# Composition API

# Composition API

---

- 什么是 Composition API
- 为何要使用 Composition API
- 如何使用 Composition API

# 什么是 Composition API

export default {}

```
export default {  
  data() {  
    return {  
      功能 A  
    };  
  },  
  methods: {  
    功能 A  
  },  
  computed: {  
    功能 A  
  },  
  watch: {  
  
  }  
}
```

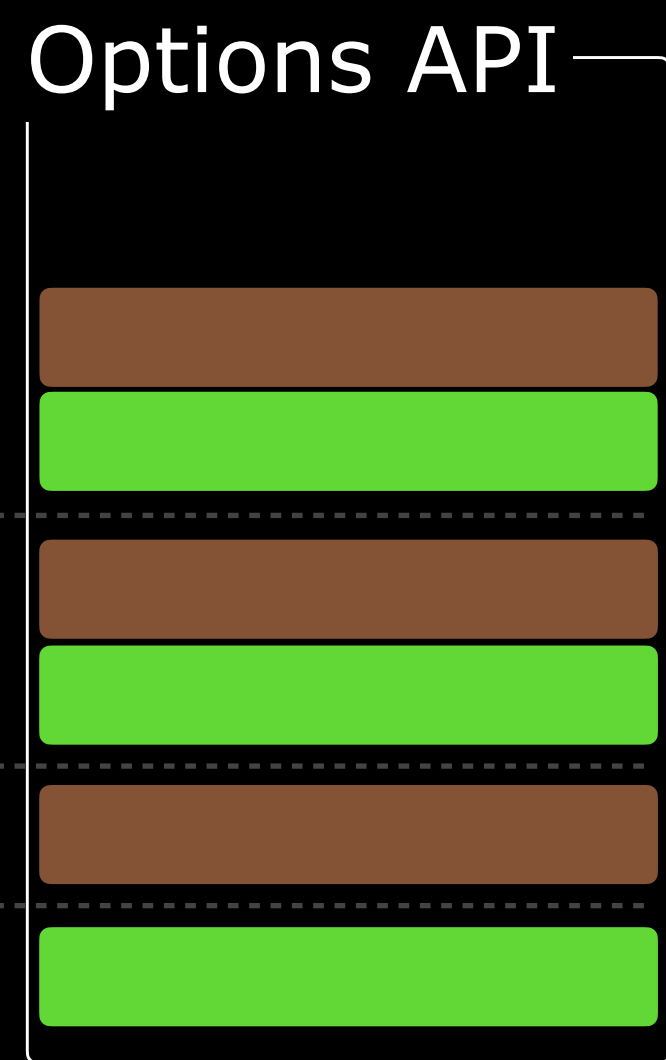

## Options API

```
export default {  
  data() {  
    return {  
      功能 A  
      功能 B  
    };  
  },  
  methods: {  
    功能 A  
    功能 B  
  },  
  computed: {  
    功能 A  
  },  
  watch: {  
    功能 B  
  }  
}
```

## Options API

```
export default {  
  data() {  
    return {  
      功能 A  
      功能 B  
    };  
  },  
  methods: {  
    功能 A  
    功能 B  
  },  
  computed: {  
    功能 A  
  },  
  watch: {  
    功能 B  
  }  
}
```
